“UBC taught me to plan my own learning, anticipate shortfalls in my own knowledge, and know how to go out of my comfort zones.”

David Waddell (MLIS ’13)

Length of program based on average completion time. International students may be eligible for a $3,200 annual partial tuition scholarship.
PROCAMS

Masters of Library and Information Studies (MLIS)
UBC iSchool is a leader in information studies, ranked first in Canada, and fourth in the world, for graduate education in library and information management. The ALA-accredited MLIS program supports a range of career pathways for students, including data services, information interaction and design, librarianship and cultural heritage.

Masters of Archival Studies (MAS)
The MAS program is a unique stand-alone degree that offers students the opportunity to explore records and archives issues in depth and from a variety of perspectives—from records creation to preservation, from analogue to digital—in the public and private sector. The program coursework supports a variety of career pathways, including traditional approaches to historical archives, records management and digital records forensics. The MAS program is international in scope, and its alumni work at organizations around the globe.

Dual MAS and MLIS (MASLIS)
The dual MASLIS program is an interdisciplinary, high-demand educational experience in which students complete two graduate degrees within an accelerated timeframe. MASLIS students gain rich expertise suited to hybrid library/archives environments and cultural institutions, giving them a competitive edge.

Masters in Children’s Literature (MACL)
UBC iSchool offers the only interdisciplinary Master of Children’s Literature program in the world—and the only Master’s program in children’s literature in Canada. The MACL program is offered in collaboration with UBC’s English Department, the Creative Writing Program, and the Department of Language and Literacy Education. This program has produced multiple award-winning authors, scholars and publishing industry professionals.

PhD
UBC iSchool’s PhD program is a four-year-funded program that combines coursework with focused independent study and research. Students have ready access to faculty members and advisors, and benefit from excellent opportunities at a research-intensive university.
